

# Safety Data Sheet

## SECTION 1: Identification

### Contact information

#### General

Vizgen, Inc.  
61 Moulton St.  
Cambridge, MA 02138  
Main: +1 (833) 222-8206  
E-mail: info@vizgen.com

**Emergency telephone number** Chemtrec (24-hour availability):  
+1 (800) 424-9300 (USA and Canada);  
+1 (703) 527-3887 (International; collect calls accepted)

**Product identifier** Clearing Premix  
**Product number** 20300003  
**Trade name** Not applicable  
**Chemical family** Mixture  
**Recommended uses and restrictions** Reagent for research and development purposes only.  
**Note** This SDS is written to address potential worker health and safety issues associated with the handling of the formulated product/mixture. Workers manufacturing this product/mixture should consult the SDS of each hazardous ingredient for hazard information and handling recommendations. This SDS will be revisited if more data become available.

## SECTION 2: Hazard(s) identification

**Serious eye damage/eye irritation Category 1**  
Causes serious eye damage

### Label elements

#### GHS Hazard pictograms

**GHS Signal word** Danger  
**GHS Hazard statements** H318 - Causes serious eye damage  
**GHS Precautionary statements** P280 - Wear protective gloves/protective clothing/eye protection/face protection.  
P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P310 - Immediately call a poison center or doctor.

**Other hazards** No data were available for the mixture. The following data describe the hazards associated with the active ingredient and/or the individual ingredients where applicable.

**Note** This mixture is classified as hazardous under GHS as implemented by Regulation EC No 1272/2008 (EU CLP), WHMIS 2015 (Health Canada), and Hazard Communication Standard No. 1910.1200 (US OSHA).

## SECTION 3: Composition/Information on ingredients

Ingredient	CAS number	EINECS/ELINCS#	Amount	GHS classification
Sodium n-Dodecyl Sulfate	151-21-3	205-788-1	< 5 %	Acute Tox. 4 (Oral), H302 Skin Irrit. 2, H315 Eye Dam. 1, H318 STOT SE 3, H335 Aquatic Chronic 3, H412

Ingredient	CAS number	EINECS/ELINCS#	Amount	GHS classification
Octylphenoxy polyethoxyethanol (Triton X-100)	9002-93-1	618-344-0	< 1 %	Acute Tox. 4 (Oral), H302 Skin Irrit. 2, H315 Eye Dam. 1, H318 Aquatic Chronic 2, H411

**Note** The ingredients listed above are considered hazardous. Amounts are listed as ranges; the exact percentage of composition is withheld as a trade secret. The remaining components of this product are non-hazardous and/or present in formulation at amounts below reportable limits. See Section 16 for full text of GHS classifications..

## SECTION 4: First-aid measures

### Description of first aid measures

<b>Immediate medical attention and special treatment, if necessary</b>	Yes.
<b>Inhalation</b>	Immediately move exposed subject to fresh air. If not breathing, give artificial respiration. If breathing is labored, administer oxygen. Immediately notify medical personnel and supervisor.
<b>Skin contact</b>	Wash exposed area with soap and water and remove contaminated clothing/shoes. If irritation occurs or persists, notify medical personnel and supervisor.
<b>Eye contact</b>	Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a physician immediately. If easy to do, remove contact lenses, if worn. Immediately flush eyes with copious quantities of water for at least 15 minutes. If irritation occurs or persists, notify medical personnel and supervisor.
<b>Ingestion</b>	If swallowed, call a physician immediately. Do not induce vomiting unless directed by medical personnel. Do not give anything to drink unless directed by medical personnel. Never give anything by mouth to an unconscious person. Notify medical personnel and supervisor.
<b>Most Important Symptoms/Effects</b>	Medical conditions aggravated by exposure: None known or reported. Treat symptomatically and supportively.
<b>Expected Symptoms/Effects, Acute and Delayed</b>	See Sections 2 and 11

## SECTION 5: Fire-fighting measures

### Suitable (and unsuitable) extinguishing media

<b>Suitable extinguishing media</b>	Use water spray (fog), foam, dry powder, or carbon dioxide, as appropriate for surrounding fire and materials.
<b>Unsuitable extinguishing media</b>	None known.
<b>Specific hazards arising from the chemical</b>	No information identified. May emit carbon monoxide, carbon dioxide, oxides of nitrogen and other nitrogen- and sulfur-containing compounds.
<b>Fire hazard</b>	No information identified. As product is an aqueous solution, it is not expected to be flammable.
<b>Explosion hazard</b>	No information identified. As product is an aqueous solution, it is not expected to be explosive.
<b>Special protective equipment and precautions for fire-fighters</b>	
<b>Firefighting instructions</b>	In case of fire in the surroundings: use the appropriate extinguishing agent. Wear full protective clothing and an approved, positive pressure, self-contained breathing apparatus. Decontaminate all equipment after use.

## SECTION 6: Accidental release measures

### Personal precautions, protective equipment and emergency procedures

<b>Protective equipment</b>	If product is released or spilled, take proper precautions to minimize exposure by using appropriate personal protective equipment (see Section 8). Area should be adequately ventilated.
<b>Emergency procedures</b>	Do not breathe vapors/mist/spray.
<b>Environmental precautions</b>	Do not empty into drains. Avoid release to the environment.
<b>Methods and material for containment and cleaning up</b>	
<b>Methods for cleaning up</b>	DO NOT CAUSE MATERIAL TO BECOME AIRBORNE. For small spills, soak up material with absorbent, e.g, paper towels. For large spills, cordon off spill area and minimize the spreading of spilled material. Soak up material with absorbent. Collect spilled material, absorbent, and rinse water into suitable containers for proper disposal in accordance with applicable waste disposal regulations (see Section 13). Decontaminate the area twice with an appropriate solvent (see Section 9).
<b>Other information</b>	Dispose of materials or solid residues at an authorized site.
<b>Reference to other sections</b>	See Sections 8 and 13 for more information.

---

## SECTION 7: Handling and storage

---

<b>Precautions for safe handling</b>	Follow recommendations for handling bulk formulated biochemical reagents (i.e. use of engineering controls and/or other personal protective equipment if needed). Avoid contact with eyes, skin and other mucous membranes. Wash thoroughly after handling. Do not breathe vapor/mist/spray.
<b>Conditions for safe storage, including any incompatibilities</b>	
<b>Storage conditions</b>	Store refrigerated, away from incompatible materials.
<b>Storage temperature</b>	≤ 4 °C
<b>Specific end use(s)</b>	Research and development.

---

## SECTION 8: Exposure controls/personal protection

---

### Control parameters/Occupational Exposure Limits

Name	Issuer	Value
<b>Sodium n-Dodecyl Sulfate</b>	No data available	No data available
<b>Octylphenoxy polyethoxyethanol</b>	No data available	No data available

<b>Appropriate engineering controls</b>	Selection and use of containment devices and personal protective equipment should be based on a risk assessment of exposure potential. Use local exhaust and/ or enclosure at aerosol/mist-generating points. Use engineered local exhaust ventilation (LEV) and/or enclosure for procedures where aerosolization may occur such as opened transfers, pumping, and spraying. Solutions can be handled outside a containment system or without LEV during procedures with no potential for aerosolization. All containers for solutions and slurries must be covered while being transferred.
<b>Respiratory protection</b>	Choice of respiratory protection should be appropriate to the task and the level of existing engineering controls. At a minimum, a tight-fitting full-face respirator with HEPA filters is required when performing aerosol generating operations. A powered air-purifying respirator (PAPR) with HEPA filters and head cover is required for spill cleanup.
<b>Hand protection</b>	Wear nitrile or other impervious gloves if skin contact is possible. Double gloves should be considered. When the material is diluted in an organic solvent, wear gloves that provide protection against the solvent.
<b>Eye protection</b>	Wear safety glasses with side shields, chemical splash goggles, or full face shield, if necessary. Base the choice of protection on the job activity and potential for contact with eyes or face. An emergency eye wash station should be available.
<b>Skin and body protection</b>	Wear disposable coveralls appropriate to the task, booties, two pairs of gloves and safety glasses with side shields. Protective garments (coveralls, disposable coveralls, lab coats) are not to be worn in common areas (e.g., cafeterias) or out-of-doors. Employees must be trained in proper gowning and degowning practices. An anteroom or transition area must be used for gowning and degowning.
<b>Other protective measures</b>	Wash hands in the event of contact with this substance, especially before eating, drinking or smoking. Protective equipment is not to be worn outside the work area (e.g., in common areas or out-of-doors).
<b>Environmental exposure controls</b>	Avoid release to the environment and operate within closed systems wherever practicable. Air and liquid emissions should be directed to appropriate pollution control devices. In case of spill, do not release to drains. Implement appropriate and effective emergency response procedures to prevent release or spread of contamination and to prevent inadvertent contact by personnel.

---

## SECTION 9: Physical and chemical properties

---

<b>Physical state</b>	Liquid
<b>Appearance</b>	Clear liquid with white precipitate.
<b>Formula</b>	Mixture (Not Applicable)
<b>Molecular mass</b>	Mixture (Not Applicable)
<b>Color</b>	Clear liquid containing white solid.
<b>Odor</b>	Odorless
<b>Odor threshold</b>	No data available
<b>pH</b>	No data available
<b>Melting point</b>	No data available
<b>Freezing point</b>	No data available
<b>Boiling point</b>	No data available
<b>Flash point</b>	No data available
<b>Relative evaporation rate (butyl acetate=1)</b>	No data available
<b>Flammability (solid, gas)</b>	No data available
<b>Vapor pressure</b>	No data available
<b>Relative vapor density at 20 °C</b>	No data available

Relative density	No data available
Solubility	Soluble in water (aqueous solution)
Log Pow	No data available
Auto-ignition temperature	No data available
Decomposition temperature	No data available
Viscosity, kinematic	No data available
Viscosity, dynamic	No data available
Explosion limits	No data available
Explosive properties	No data available
Oxidizing properties	No data available

---

## SECTION 10: Stability and reactivity

---

Reactivity	The product is non-reactive under normal conditions of use, storage and transport.
Chemical stability	Stable under normal conditions.
Possibility of hazardous reactions	No dangerous reactions known under normal conditions of use.
Conditions to avoid	None under recommended storage and handling conditions (see section 7).
Incompatible materials	No data available.
Hazardous decomposition products	Under normal conditions of storage and use, hazardous decomposition products should not be produced.

---

## SECTION 11: Toxicological information

---

Likely routes of exposure May be absorbed by inhalation, skin contact and ingestion.

### Toxicological information

#### Acute toxicity

Component	Type	Dose
-----------	------	------

Sodium n-Dodecyl Sulfate	LD50 Oral rat	1288 mg/kg
	LD50 Dermal rat	> 2000 mg/kg

Octylphenoxy polyethoxyethanol	LD50 Oral rat	1800 mg/kg
--------------------------------	---------------	------------

#### Additional information

#### Serious eye damage/irritation

No data available

Sodium n-dodecyl sulfate was an eye irritant in rabbits. Octylphenoxy polyethoxyethanol (Triton X-100) was a severe eye irritant in rabbits.

#### Skin corrosion/irritation

Sodium n-dodecyl sulfate was a skin irritant in rabbits. Octylphenoxy polyethoxyethanol (Triton X-100) was a mild skin irritant in rabbits.

#### Sensitization

Sodium n-dodecyl sulfate is not a sensitizer in humans.

#### STOT-single exposure

No data available

#### STOT-repeated exposure

Repeat-dose oral toxicity studies with sodium n-dodecyl sulfate showed only local gastrointestinal tract irritation in rats with no systemic effects seen at 100 mg/kg/day.

#### Reproductive toxicity

No evidence of impaired fertility was observed in rats and male mice orally treated with 100 mg/kg/day sodium n-dodecyl sulfate. No effects on sperm were seen in male mice at high doses.

#### Developmental toxicity

Developmental toxicity was observed in mice and rabbits treated with oral sodium n-dodecyl sulfate, but only at severely maternally toxic doses.

#### Genotoxicity

Sodium n-dodecyl sulfate was negative for genotoxicity in several in vitro and in vivo assays.

#### Carcinogenicity

Sodium n-dodecyl sulfate was not carcinogenic in Beagle dogs. None of the components of this product/mixture present at levels greater than or equal to 0.1% are listed by NTP, IARC, ACGIH or OSHA as a carcinogen

#### Aspiration hazard

No data available

#### Experience with humans

See "Section 2 - Other Hazards".

---

## SECTION 12: Ecological information

---

### Toxicity

Component	Type	Concentration
<b>Sodium n-Dodecyl Sulfate</b>	LC50 fish	4.1 mg/l
	EC50 crustacea	5.55 mg/l
	ErC50 algae	< 60 mg/l
	NOEC (chronic)	0.88 mg/l Ceriodaphnia dubia, 7d
<b>Octylphenoxy polyethoxyethanol</b>	LC50 fish	4.5 mg/l
<b>Persistence and degradability</b>	No data available.	
<b>Bioaccumulative potential</b>	No data available	
<b>Mobility in soil</b>	No data available	
<b>Results of PBT assessment</b>	No data available	
<b>Other adverse effects</b>	No data available	
<b>Note</b>	The environmental characteristics of this product/mixture have not been fully investigated. Releases to the environment should be avoided.	

---

## SECTION 13: Disposal considerations

---

<b>Waste treatment methods</b>	Used product should be disposed of according to local, state, and federal regulations. All wastes containing the material should be properly labeled. Dispose of wastes in accordance to prescribed federal, state, and local guidelines, e.g, appropriately permitted chemical waste incinerator. Rinse waters resulting from spill cleanups should be discharged in an environmentally safe manner, e.g, appropriately permitted municipal or on-site wastewater treatment facility.
--------------------------------	--

---

## SECTION 14: Transport information

---

<b>Transport</b>	Based on the available data, this product/mixture is not regulated as a hazardous material/dangerous good under EU ADR/RID, US DOT, Canada TDG, IATA, or IMDG.
<b>UN number</b>	None assigned.
<b>UN proper shipping name</b>	None assigned.
<b>Transport hazard class(es) (DOT)</b>	None assigned.
<b>Packing group</b>	None assigned.
<b>Marine pollutant</b>	Based on the available data, this product/mixture is not regulated as an environmental hazard or a marine pollutant.
<b>Special transport precautions</b>	Avoid release to the environment.
<b>Transport in bulk according to Annex II of Marpol and the IBC Code</b>	Not applicable

---

## SECTION 15: Regulatory information

---

<b>Safety, health and environmental regulations/legislation specific for the substance or mixture</b>	This SDS generally complies with the requirements listed under current guidelines in the US, EU and Canada. Consult your local or regional authorities for more information.
<b>Chemical safety assessment</b>	No chemical safety assessment has been carried out.
<b>TSCA</b>	All components of this product are listed as active, or excluded from listing, on the United States Environmental Protection Agency Toxic Substances Control Act (TSCA) inventory.
<b>SARA Section 313 - Emission Reporting</b>	This substance or mixture is not known to contain a toxic chemical or chemicals in excess of the applicable de minimis concentration as specified in 40 CFR §372.38(a) subject to the reporting requirements of section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372.
<b>California Proposition 65</b>	California Proposition 65 - This product does not contain any substances known to the state of California to cause cancer, developmental and/or reproductive harm.
<b>Additional information</b>	No additional information available

---

## SECTION 16: Other information

---

**Full text of H phrases and GHS classification**

Acute Tox. 4 (Oral) - Acute toxicity (oral) Category 4.  
Aquatic Chronic 2 - Hazardous to the aquatic environment - Chronic Hazard Category 2.  
Aquatic Chronic 3 - Hazardous to the aquatic environment - Chronic Hazard Category 3.  
Eye Dam. 1 - Serious eye damage/eye irritation Category 1.  
Skin Irrit. 2 - Skin corrosion/irritation Category 2.  
STOT SE 3 - Specific target organ toxicity — Single exposure, Category 3, Respiratory tract irritation.  
H302 - Harmful if swallowed.  
H315 - Causes skin irritation.  
H318 - Causes serious eye damage.  
H335 - May cause respiratory irritation.  
H411 - Toxic to aquatic life with long lasting effects.  
H412 - Harmful to aquatic life with long lasting effects.

**Data sources**

Information from published literature and internal company data.

**Abbreviations and acronyms**

ACGIH - American Conference of Governmental Industrial Hygienists; ADR/RID - European Agreement Concerning the International Carriage of Dangerous Goods by Road/Rail; AIHA - American Industrial Hygiene Association; CAS# - Chemical Abstract Services Number; CLP - Classification, Labelling, and Packaging of Substances and Mixtures; DNEL - Derived No Effect Level; DOT - Department of Transportation; EINECS - European Inventory of New and Existing Chemical Substances; ELINCS - European List of Notified Chemical Substances; EU - European Union; GHS - Globally Harmonized System of Classification and Labeling of Chemicals; IARC - International Agency for Research on Cancer; IDLH - Immediately Dangerous to Life or Health; IATA - International Air Transport Association; IMDG - International Maritime Dangerous Goods; LOEL - Lowest Observed Effect Level; LOAEL - Lowest Observed Adverse Effect Level; NIOSH - The National Institute for Occupational Safety and Health; NOEL - No Observed Effect Level; NOAEL - No Observed Adverse Effect Level; NTP - National Toxicology Program; OEL - Occupational Exposure Limit; OSHA - Occupational Safety and Health Administration; PBT - Persistent, Bioaccumulative, and Toxic; PNEC - Predicted No Effect Concentration; SARA - Superfund Amendments and Reauthorization Act; STOT - Specific Target Organ Toxicity; STEL - Short Term Exposure Limit; TDG - Transportation of Dangerous Goods; TSCA - Toxic Substances Control Act; TWA - Time Weighted Average; vPvB - Very Persistent and Very Bioaccumulative; WHMIS - Workplace Hazardous Materials Information System

**Issue date**

27 October 2021

**Current revision**

1.0

**Indication of Changes**

This is the first version of this SDS.

**Disclaimer**

The above information is based on data available to us and is believed to be correct. Since the information may be applied under conditions beyond our control and with which we may be unfamiliar, we do not assume any responsibility for the results of its use and all persons receiving it must make their own determination of the effects, properties and protections which pertain to their particular conditions. No representation, warranty, or guarantee, express or implied (including a warranty of fitness or merchantability for a particular purpose), is made with respect to the materials, the accuracy of this information, the results to be obtained from the use thereof, or the hazards connected with the use of the material. Caution should be used in the handling and use of the material because it is a biochemical reagent. The above information is offered in good faith and with the belief that it is accurate. As of the date of issuance, we are providing all information relevant to the foreseeable handling of the material. However, in the event of an adverse incident associated with this product, this Safety Data Sheet is not, and is not intended to be, a substitute for consultation with appropriately trained personnel.
