

# Safety Data Sheet

## SECTION 1: Identification

### Contact information

#### General

Vizgen, Inc.  
61 Moulton St.  
Cambridge, MA 02138  
Main: +1 (833) 222-8206  
E-mail: info@vizgen.com

**Emergency telephone number** Chemtrec (24-hour availability):  
+1 (800) 424-9300 (USA and Canada);  
+1 (703) 527-3887 (International; collect calls accepted)

**Product identifier** Wash Buffer 1, BULK  
**Product number** 20200002  
**Trade name** Not applicable  
**Chemical family** Mixture  
**Recommended uses and restrictions** Reagent for research and development purposes only.  
**Note** The toxicological and ecological properties of this mixture have not been fully characterized. This SDS will be updated as more data become available .

## SECTION 2: Hazard(s) identification

### Classification of the substance or mixture

**Reproductive toxicity Category 1B**  
May damage fertility or the unborn child

### Label elements

#### GHS Hazard pictograms

**GHS Signal word** Danger  
**GHS Hazard statements** H360D - May damage fertility or the unborn child  
**GHS Precautionary statements** P201 - Obtain special instructions before use. P280 - Wear protective gloves/protective clothing/eye protection/face protection. P308+P313 - If exposed or concerned: Get medical advice/attention. P405 - Store locked up. P501 - Dispose of contents/container to hazardous or special waste collection point, in accordance with local, regional, national and/or international regulation.

**Other hazards** No data were available for the mixture. The following data describe the hazards associated with the active ingredient and/or the individual ingredients where applicable.

**Note** This mixture is classified as hazardous under GHS as implemented by Regulation EC No 1272/2008 (EU CLP), WHMIS 2015 (Health Canada), and Hazard Communication Standard No. 1910.1200 (US OSHA).

## SECTION 3: Composition/Information on ingredients

Ingredient	CAS number	EINECS/ELINCS#	Amount	GHS classification
Formamide	75-12-7	200-842-0	< 50 %	Repr. 1B, H360D

**Note** The ingredients listed above are considered hazardous. GHS classifications of formamide are based on the classification in EU - CLP Annex VI - Table 3.1. Amounts are listed as ranges; the exact percentage of composition is withheld as a trade secret. The remaining components of this product are non-hazardous and/or present in formulation

# Safety Data Sheet

## SECTION 1: Identification

### Contact information

#### General

Vizgen, Inc.  
61 Moulton St.  
Cambridge, MA 02138  
Main: +1 (833) 222-8206  
E-mail: info@vizgen.com

**Emergency telephone number** Chemtrec (24-hour availability):  
+1 (800) 424-9300 (USA and Canada);  
+1 (703) 527-3887 (International; collect calls accepted)

**Product identifier** Wash Buffer 2, BULK  
**Product number** 20200001  
**Trade name** Not applicable  
**Chemical family** Mixture  
**Recommended uses and restrictions** Reagent for research and development purposes only.  
**Note** This SDS is written to address potential worker health and safety issues associated with the handling of the formulated product/mixture. Workers manufacturing this product/mixture should consult the SDS of each hazardous ingredient for hazard information and handling recommendations. This SDS will be revisited if more data become available.

## SECTION 2: Hazard(s) identification

**Classification of the substance or mixture** Not classified

### Label elements

**GHS Hazard pictograms** Not applicable  
**GHS Signal word** Not applicable  
**GHS Hazard statements** Not applicable  
**GHS Precautionary statements** Not applicable

**Other hazards** No data identified for the mixture. The following data describe the hazards of individual ingredients, where applicable.

**Note** This mixture does not meet criteria for classification under GHS as implemented by Regulation EC No 1272/2008 (EU CLP), WHMIS 2015 (Health Canada), and Hazard Communication Standard No. 1910.1200 (US OSHA). Nevertheless, it should be handled with caution as it has not yet been fully tested.

## SECTION 3: Composition/Information on ingredients

Ingredient	CAS number	EINECS/ELINCS#	Amount	GHS classification
Non-hazardous reagents	N/A	N/A	100%	Not classified

**Note** The principal ingredient in this mixture is distilled water. Any remaining components are not hazardous and/or are present at amounts below reportable limits.

## SECTION 4: First-aid measures

### Description of first aid measures

**Immediate medical attention and special treatment, if necessary** No. If exposed or concerned: get medical advice/attention.  
**Inhalation** Immediately move exposed subject to fresh air. If not breathing, give artificial respiration. If breathing is labored, administer oxygen. Immediately notify medical personnel and supervisor.

<b>Skin contact</b>	Wash exposed area with soap and water and remove contaminated clothing/shoes. If irritation occurs or persists, notify medical personnel and supervisor.
<b>Eye contact</b>	If easy to do, remove contact lenses, if worn. Immediately flush eyes with copious quantities of water for at least 15 minutes. If irritation occurs or persists, notify medical personnel and supervisor.
<b>Ingestion</b>	If swallowed, call a physician immediately. Do not induce vomiting unless directed by medical personnel. Do not give anything to drink unless directed by medical personnel. Never give anything by mouth to an unconscious person. Notify medical personnel and supervisor.
<b>Most Important Symptoms/Effects</b>	Medical conditions aggravated by exposure: None known or reported. Treat symptomatically and supportively.
<b>Expected Symptoms/Effects, Acute and Delayed</b>	See Sections 2 and 11

## SECTION 5: Fire-fighting measures

### Suitable (and unsuitable) extinguishing media

**Suitable extinguishing media** Use water spray (fog), foam, dry powder, or carbon dioxide, as appropriate for surrounding fire and materials.

### Specific hazards arising from the chemical

No information identified. May emit carbon monoxide, carbon dioxide, oxides of nitrogen and other nitrogen-containing compounds.

#### Fire hazard

No information identified. As product is an aqueous solution, it is not expected to be flammable.

#### Explosion hazard

No information identified. As product is an aqueous solution, it is not expected to be explosive.

### Special protective equipment and precautions for fire-fighters

#### Firefighting instructions

In case of fire in the surroundings: use the appropriate extinguishing agent. Wear full protective clothing and an approved, positive pressure, self-contained breathing apparatus. Decontaminate all equipment after use.

## SECTION 6: Accidental release measures

### Personal precautions, protective equipment and emergency procedures

#### Protective equipment

If product is released or spilled, take proper precautions to minimize exposure by using appropriate personal protective equipment (see Section 8). Area should be adequately ventilated.

#### Emergency procedures

Do not breathe vapors/mist/spray.

#### Environmental precautions

Do not empty into drains. Avoid release to the environment.

### Methods and material for containment and cleaning up

#### Methods for cleaning up

DO NOT CAUSE MATERIAL TO BECOME AIRBORNE. For small spills, soak up material with absorbent, e.g. paper towels. For large spills, cordon off spill area and minimize the spreading of spilled material. Soak up material with absorbent. Collect spilled material, absorbent, and rinse water into suitable containers for proper disposal in accordance with applicable waste disposal regulations (see Section 13). Decontaminate the area twice with an appropriate solvent (see Section 9).

#### Reference to other sections

See Sections 8 and 13 for more information.

## SECTION 7: Handling and storage

### Precautions for safe handling

Follow recommendations for handling bulk formulated biochemical reagents (i.e. use of engineering controls and/or other personal protective equipment if needed). Avoid contact with eyes, skin, and other mucous membranes. Wash thoroughly after handling. Do not breathe vapor/mist/spray.

### Conditions for safe storage, including any incompatibilities

#### Storage conditions

Store at NMT -20° C, away from incompatible materials.

#### Storage temperature

≤ -20 °C

#### Specific end use(s)

Research and development.

## SECTION 8: Exposure controls/personal protection

### Control parameters/Occupational Exposure Limits

Name	Issuer	Value
Non-hazardous reagents	No data available	No data available

### Appropriate engineering controls

Selection and use of containment devices and personal protective equipment should be based on a risk assessment of exposure potential. Use local exhaust and/or enclosure at aerosol/mist-generating points. Use engineered local exhaust ventilation (LEV) and/or enclosure for procedures where aerosolization may occur such as opened transfers, pumping, and spraying. Solutions can be handled outside a containment system or without LEV during procedures with no potential for aerosolization.

<b>Respiratory protection</b>	Choice of respiratory protection should be appropriate to the task and the level of existing engineering controls. At a minimum, a tight-fitting full-face respirator with HEPA filters is required when performing aerosol-generating operations. A powered air-purifying respirator (PAPR) with HEPA filters and head cover is required for spill cleanup.
<b>Hand protection</b>	Wear nitrile or other impervious gloves if skin contact is possible. When the material is diluted in an organic solvent, wear gloves that provide protection against the solvent.
<b>Eye protection</b>	Wear safety glasses with side shields, chemical splash goggles, or full face shield, if necessary. Base the choice of protection on the job activity and potential for contact with eyes or face. An emergency eye wash station should be available.
<b>Skin and body protection</b>	Wear disposable coveralls appropriate to the task, booties, and safety glasses with side shields. Ensure gloves are protective against solvents in use. Protective garments (coveralls, disposable coveralls, lab coats) are not to be worn in common areas (e.g., cafeterias) or out-of-doors. Employees must be trained in proper gowning and degowning practices
<b>Other protective measures</b>	Wash hands in the event of contact with material, especially before eating, drinking or smoking. Protective equipment is not to be worn outside the work area (e.g., in common areas or out-of-doors).
<b>Environmental exposure controls</b>	Avoid release to the environment and operate within closed systems wherever practicable. Air and liquid emissions should be directed to appropriate pollution control devices. In case of spill, do not release to drains. Implement appropriate and effective emergency response procedures to prevent release or spread of contamination and to prevent inadvertent contact by personnel.

---

## SECTION 9: Physical and chemical properties

---

<b>Physical state</b>	Liquid
<b>Appearance</b>	Clear
<b>Formula</b>	Not applicable (Mixture)
<b>Molecular mass</b>	Not applicable (Mixture)
<b>Color</b>	No data available
<b>Odor</b>	No data available
<b>Odor threshold</b>	No data available
<b>pH</b>	No data available
<b>Melting point</b>	No data available
<b>Freezing point</b>	No data available
<b>Boiling point</b>	No data available
<b>Flash point</b>	No data available
<b>Relative evaporation rate (butyl acetate=1)</b>	No data available
<b>Flammability (solid, gas)</b>	No data available
<b>Vapor pressure</b>	No data available
<b>Relative vapor density at 20 °C</b>	No data available
<b>Relative density</b>	No data available
<b>Solubility</b>	Soluble in water (aqueous solution)
<b>Log Pow</b>	No data available
<b>Auto-ignition temperature</b>	No data available
<b>Decomposition temperature</b>	No data available
<b>Viscosity, kinematic</b>	No data available
<b>Viscosity, dynamic</b>	No data available
<b>Explosion limits</b>	No data available
<b>Explosive properties</b>	No data available
<b>Oxidizing properties</b>	No data available

---

## SECTION 10: Stability and reactivity

---

<b>Reactivity</b>	The product is non-reactive under normal conditions of use, storage and transport.
<b>Chemical stability</b>	Stable under normal conditions
<b>Possibility of hazardous reactions</b>	No dangerous reactions known under normal conditions of use.
<b>Conditions to avoid</b>	None under recommended storage and handling conditions (see section 7).
<b>Incompatible materials</b>	No data available.
<b>Hazardous decomposition products</b>	Under normal conditions of storage and use, hazardous decomposition products should not be produced.

---

## SECTION 11: Toxicological information

---

**Likely routes of exposure**

May be absorbed by inhalation, skin contact and ingestion.

**Toxicological information****Acute toxicity****Component****Type****Dose****Non-hazardous reagents**

No data available

No data available

**Additional information**

No data available

**Serious eye damage/irritation**

No data available

**Skin corrosion/irritation**

No data available

**Sensitization**

No data available

**STOT-single exposure**

No data available

**STOT-repeated exposure**

No data available

**Reproductive toxicity**

No data available

**Developmental toxicity**

No data available

**Genotoxicity**

No data available

**Carcinogenicity**

No data available. None of the components of the mixture present at levels greater than or equal to 0.1% are listed by NTP, IARC, ACGIH or OSHA as a carcinogen

**Aspiration hazard**

No data available

**Experience with humans**

See "Section 2 - Other Hazards".

**SECTION 12: Ecological information****Toxicity****Component****Type****Concentration****Non-hazardous reagents**

No data available

No data available

**Persistence and degradability**

No data available.

**Bioaccumulative potential**

No data available.

**Mobility in soil**

No data available

**Results of PBT assessment**

No data available

**Other adverse effects**

No data available

**Note**

The environmental characteristics of this product/mixture have not been fully investigated. Releases to the environment should be avoided.

**SECTION 13: Disposal considerations****Waste treatment methods**

Used product should be disposed of according to local, state, and federal regulations. All wastes containing the material should be properly labeled. Dispose of wastes in accordance to prescribed federal, state, and local guidelines, e.g, appropriately permitted chemical waste incinerator. Rinse waters resulting from spill cleanups should be discharged in an environmentally safe manner, e.g, appropriately permitted municipal or on-site wastewater treatment facility.

**SECTION 14: Transport information****Transport**

Based on the available data, this product/mixture is not regulated as a hazardous material/dangerous good under EU ADR/RID, US DOT, Canada TDG, IATA, or IMDG.

**UN number**

None assigned.

**UN proper shipping name**

None assigned.

**Transport hazard class(es) (DOT)**

None assigned.

**Packing group**

None assigned.

**Marine pollutant**

Based on the available data, this product/mixture is not regulated as an environmental hazard or a marine pollutant.

**Special transport precautions**

Avoid release to the environment.

**Transport in bulk according to Annex II of Marpol and the IBC Code**

Not applicable

**SECTION 15: Regulatory information**

**Safety, health and environmental regulations/legislation specific for the substance or mixture**  
**Chemical safety assessment**

This SDS generally complies with the requirements listed under current guidelines in the US, EU and Canada. Consult your local or regional authorities for more information.

**TSCA**

No chemical safety assessment has been carried out.

All components of this product are listed as active, or excluded from listing, on the United States Environmental Protection Agency Toxic Substances Control Act (TSCA) inventory.

**SARA Section 313 - Emission Reporting**

This substance or mixture is not known to contain a toxic chemical or chemicals in excess of the applicable de minimis concentration as specified in 40 CFR §372.38(a) subject to the reporting requirements of section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372.

**California Proposition 65**

California Proposition 65 - This product does not contain any substances known to the state of California to cause cancer, developmental and/or reproductive harm.

**Additional information**

This SDS generally complies with the requirements listed under current guidelines in the US, EU and Canada. Consult your local or regional authorities for more information.

---

**SECTION 16: Other information**

**Full text of H phrases and GHS classification**

Not applicable

**Data sources**

Information from published literature and internal company data.

**Abbreviations and acronyms**

ACGIH - American Conference of Governmental Industrial Hygienists; ADR/RID - European Agreement Concerning the International Carriage of Dangerous Goods by Road/Rail; AIHA - American Industrial Hygiene Association; CAS# - Chemical Abstract Services Number; CLP - Classification, Labelling, and Packaging of Substances and Mixtures; DNEL - Derived No Effect Level; DOT - Department of Transportation; EINECS - European Inventory of New and Existing Chemical Substances; ELINCS - European List of Notified Chemical Substances; EU - European Union; GHS - Globally Harmonized System of Classification and Labeling of Chemicals; IARC - International Agency for Research on Cancer; IDLH - Immediately Dangerous to Life or Health; IATA - International Air Transport Association; IMDG - International Maritime Dangerous Goods; LOEL - Lowest Observed Effect Level; LOAEL - Lowest Observed Adverse Effect Level; NIOSH - The National Institute for Occupational Safety and Health; NMT - Not More Than; NOEL - No Observed Effect Level; NOAEL - No Observed Adverse Effect Level; NTP - National Toxicology Program; OEL - Occupational Exposure Limit; OSHA - Occupational Safety and Health Administration; PBT - Persistent, Bioaccumulative, and Toxic; PNEC - Predicted No Effect Concentration; SARA - Superfund Amendments and Reauthorization Act; STOT - Specific Target Organ Toxicity; STEL - Short Term Exposure Limit; TDG - Transportation of Dangerous Goods; TSCA - Toxic Substances Control Act; TWA - Time Weighted Average; vPvB - Very Persistent and Very Bioaccumulative; WHMIS - Workplace Hazardous Materials Information System

**Issue date**

27 October 2021

**Current revision**

1.1

**Indication of changes**

This is the second version of this SDS.

**Disclaimer**

The above information is based on data available to us and is believed to be correct. Since the information may be applied under conditions beyond our control and with which we may be unfamiliar, we do not assume any responsibility for the results of its use and all persons receiving it must make their own determination of the effects, properties and protections which pertain to their particular conditions. No representation, warranty, or guarantee, express or implied (including a warranty of fitness or merchantability for a particular purpose), is made with respect to the materials, the accuracy of this information, the results to be obtained from the use thereof, or the hazards connected with the use of the material. Caution should be used in the handling and use of the material because it is a biochemical reagent. The above information is offered in good faith and with the belief that it is accurate. As of the date of issuance, we are providing all information relevant to the foreseeable handling of the material. However, in the event of an adverse incident associated with this product, this Safety Data Sheet is not, and is not intended to be, a substitute for consultation with appropriately trained personnel.

# Safety Data Sheet

## SECTION 1: Identification

### Contact information

#### General

Vizgen, Inc.  
61 Moulton St.  
Cambridge, MA 02138  
Main: +1 (833) 222-8206  
E-mail: info@vizgen.com

**Emergency telephone number** Chemtrec (24-hour availability):  
+1 (800) 424-9300 (USA and Canada);  
+1 (703) 527-3887 (International; collect calls accepted)

**Product identifier** Imaging Buffer, BULK  
**Product number** 20200016  
**Trade name** Not applicable  
**Chemical family** Mixture  
**Recommended uses and restrictions** Reagent for research and development purposes only.  
**Note** This SDS is written to address potential worker health and safety issues associated with the handling of the formulated product/mixture. Workers manufacturing this product/mixture should consult the SDS of each hazardous ingredient for hazard information and handling recommendations. This SDS will be revisited if more data become available.

## SECTION 2: Hazard(s) identification

### Classification of the substance or mixture

Not classified

### Label elements

**GHS Hazard pictograms** Not applicable  
**GHS Signal word** Not applicable  
**GHS Hazard statements** Not applicable  
**GHS Precautionary statements** Not applicable

### Other hazards

No data were available for the mixture. The following data describe the hazards associated with the active ingredient and/or the individual ingredients where applicable.

Tromethamine HCl is irritating to eyes, skin, and respiratory tract.

**Note** This mixture does not meet criteria for classification under GHS as implemented by Regulation EC No 1272/2008 (EU CLP), WHMIS 2015 (Health Canada), and Hazard Communication Standard No. 1910.1200 (US OSHA). Nevertheless, it should be handled with caution as it has not yet been fully tested.

## SECTION 3: Composition/Information on ingredients

Ingredient	CAS number	EINECS/ELINCS#	Amount	GHS classification
Tromethamine HCl	1185-53-1	214-684-5	< 2 %	Skin Irrit. 2, H315 Eye Irrit. 2, H319 STOT SE 3, H335

**Note** The ingredients listed above are considered hazardous. The remaining components are non-hazardous and/or present at amounts below reportable limits. See Section 16 for full text of GHS classifications .

## SECTION 4: First-aid measures

### Description of first aid measures

**Immediate medical attention and special treatment, if necessary** No. If exposed or concerned, get medical advice/attention.

<b>Inhalation</b>	If experiencing respiratory symptoms: Call a poison center or a doctor. Immediately move exposed subject to fresh air. If not breathing, give artificial respiration. If breathing is labored, administer oxygen. Immediately notify medical personnel and supervisor.
<b>Skin contact</b>	Wash exposed area with soap and water and remove contaminated clothing/shoes. If irritation occurs or persists, notify medical personnel and supervisor.
<b>Eye contact</b>	If easy to do, remove contact lenses, if worn. Immediately flush eyes with copious quantities of water for at least 15 minutes. If irritation occurs or persists, notify medical personnel and supervisor.
<b>Ingestion</b>	If swallowed, call a physician immediately. Do not induce vomiting unless directed by medical personnel. Do not give anything to drink unless directed by medical personnel. Never give anything by mouth to an unconscious person. Notify medical personnel and supervisor.
<b>Most Important Symptoms/Effects</b>	Medical conditions aggravated by exposure: None known or reported. Treat symptomatically and supportively.
<b>Expected Symptoms/Effects, Acute and Delayed</b>	See Sections 2 and 11

## SECTION 5: Fire-fighting measures

### Suitable (and unsuitable) extinguishing media

**Suitable extinguishing media** Use water spray (fog), foam, dry powder, or carbon dioxide, as appropriate for surrounding fire and materials.

### Specific hazards arising from the chemical

No information identified. May emit carbon monoxide, carbon dioxide, oxides of nitrogen and other nitrogen-containing compounds.

**Fire hazard** No information identified. As product is an aqueous solution, it is not expected to be flammable.

**Explosion hazard** No information identified. As product is an aqueous solution, it is not expected to be explosive.

### Special protective equipment and precautions for fire-fighters

**Firefighting instructions** In case of fire in the surroundings: use the appropriate extinguishing agent. Wear full protective clothing and an approved, positive pressure, self-contained breathing apparatus. Decontaminate all equipment after use.

## SECTION 6: Accidental release measures

### Personal precautions, protective equipment and emergency procedures

**Protective equipment** If product is released or spilled, take proper precautions to minimize exposure by using appropriate personal protective equipment (see Section 8). Area should be adequately ventilated.

**Emergency procedures** Do not breathe vapors/mist/spray.

### Environmental precautions

Do not empty into drains. Avoid release to the environment.

### Methods and material for containment and cleaning up

**Methods for cleaning up** DO NOT CAUSE MATERIAL TO BECOME AIRBORNE. For small spills, soak up material with absorbent, e.g. paper towels. For large spills, cordon off spill area and minimize the spreading of spilled material. Soak up material with absorbent. Collect spilled material, absorbent, and rinse water into suitable containers for proper disposal in accordance with applicable waste disposal regulations (see Section 13). Decontaminate the area twice with an appropriate solvent.

**Other information** Dispose of materials or solid residues at an authorized site.

### Reference to other sections

See Sections 8 and 13 for more information.

## SECTION 7: Handling and storage

**Precautions for safe handling** Follow recommendations for handling bulk formulated biochemical reagents (i.e. use of engineering controls and/or other personal protective equipment if needed). Avoid contact with eyes, skin and other mucous membranes. Wash thoroughly after handling. Do not breathe vapor/mist/spray.

### Conditions for safe storage, including any incompatibilities

**Storage conditions** Store at NMT -20° C, away from incompatible materials.

**Storage temperature** ≤ -20 °C

### Specific end use(s)

Research and development.

## SECTION 8: Exposure controls/personal protection

### Control parameters/Occupational Exposure Limits

Name	Issuer	Value
Tromethamine HCl	No data available	No data available

<b>Appropriate engineering controls</b>	Selection and use of containment devices and personal protective equipment should be based on a risk assessment of exposure potential. Use local exhaust and/ or enclosure at aerosol/mist-generating points. Use engineered local exhaust ventilation (LEV) and/or enclosure for procedures where aerosolization may occur such as opened transfers, pumping, and spraying. Solutions can be handled outside a containment system or without LEV during procedures with no potential for aerosolization.
<b>Respiratory protection</b>	Choice of respiratory protection should be appropriate to the task and the level of existing engineering controls. At a minimum, a tight-fitting full-face respirator with HEPA filters is required when performing aerosol generating operations. A powered air-purifying respirator (PAPR) with HEPA filters and head cover is required for spill cleanup.
<b>Hand protection</b>	Wear nitrile or other impervious gloves if skin contact is possible. When the material is diluted in an organic solvent, wear gloves that provide protection against the solvent.
<b>Eye protection</b>	Wear safety glasses with side shields, chemical splash goggles, or full face shield, if necessary. Base the choice of protection on the job activity and potential for contact with eyes or face. An emergency eye wash station should be available.
<b>Skin and body protection</b>	Wear disposable coveralls appropriate to the task, booties, and safety glasses with side shields. Ensure gloves are protective against solvents in use. Protective garments (coveralls, disposable coveralls, lab coats) are not to be worn in common areas (e.g., cafeterias) or out-of-doors. Employees must be trained in proper gowning and degowning practices
<b>Other protective measures</b>	Wash hands in the event of contact with this product/mixture, especially before eating, drinking or smoking. Protective equipment is not to be worn outside the work area (e.g., in common areas or out-of-doors). Decontaminate all protective equipment following use.
<b>Environmental exposure controls</b>	Avoid release to the environment and operate within closed systems wherever practicable. Air and liquid emissions should be directed to appropriate pollution control devices. In case of spill, do not release to drains. Implement appropriate and effective emergency response procedures to prevent release or spread of contamination and to prevent inadvertent contact by personnel.

---

## SECTION 10: Stability and reactivity

---

<b>Reactivity</b>	The product is non-reactive under normal conditions of use, storage and transport.
<b>Chemical stability</b>	Stable under normal conditions.
<b>Possibility of hazardous reactions</b>	No dangerous reactions known under normal conditions of use.
<b>Conditions to avoid</b>	None under recommended storage and handling conditions (see section 7).

Incompatible materials  
Hazardous decomposition products

No data available.  
Under normal conditions of storage and use, hazardous decomposition products should not be produced.

---

## SECTION 11: Toxicological information

---

Likely routes of exposure May be absorbed by inhalation, skin contact and ingestion.

### Toxicological information

#### Acute toxicity

Component	Type	Dose
-----------	------	------

Tromethamine HCl	No data available	No data available
------------------	-------------------	-------------------

#### Additional information

No data available

#### Serious eye damage/irritation

Tromethamine HCl is irritating to eyes.

#### Skin corrosion/irritation

Tromethamine HCl is irritating to skin.

#### Sensitization

No data available

#### STOT-single exposure

No data available

#### STOT-repeated exposure

No data available

#### Reproductive toxicity

No data available

#### Developmental toxicity

No data available

#### Genotoxicity

No data available

#### Carcinogenicity

No data available. None of the components of this product/mixture present at levels greater than or equal to 0.1% are listed by NTP, IARC, ACGIH or OSHA as a carcinogen.

#### Aspiration hazard

No data available

#### Experience with humans

See "Section 2 - Other Hazards".

---

## SECTION 12: Ecological information

---

### Toxicity

Component	Type	Concentration
-----------	------	---------------

Tromethamine HCl	EC50 crustacea	> 100 mg/l 48 h
------------------	----------------	-----------------

#### Persistence and degradability

No additional information available.

#### Bioaccumulative potential

No data available.

#### Mobility in soil

No data available

#### Results of PBT assessment

No data available

#### Other adverse effects

No data available

#### Note

The environmental characteristics of this product/mixture have not been fully investigated. Releases to the environment should be avoided.

---

## SECTION 13: Disposal considerations

---

### Waste treatment methods

Used product should be disposed of according to local, state, and federal regulations. All wastes containing the material should be properly labeled. Dispose of wastes in accordance to prescribed federal, state, and local guidelines, e.g. appropriately permitted chemical waste incinerator. Rinse waters resulting from spill cleanups should be discharged in an environmentally safe manner, e.g. appropriately permitted municipal or on-site wastewater treatment facility.

---

## SECTION 14: Transport information

---

### Transport

Based on the available data, this product/mixture is not regulated as a hazardous material/dangerous good under EU ADR/RID, US DOT, Canada TDG, IATA, or IMDG.

#### UN number

None assigned.

#### UN proper shipping name

None assigned.

#### Transport hazard class(es) (DOT)

None assigned.

#### Packing group

None assigned.

#### Marine pollutant

Based on the available data, this product/mixture is not regulated as an environmental hazard or a marine pollutant.

#### Special transport precautions

Avoid release to the environment.

#### Transport in bulk according to Annex II of Marpol and the IBC Code

Not applicable

---

## SECTION 15: Regulatory information

---

<b>Safety, health and environmental regulations/legislation specific for the substance or mixture</b>	This SDS generally complies with the requirements listed under current guidelines in the US, EU and Canada. Consult your local or regional authorities for more information.
<b>Chemical safety assessment</b>	No chemical safety assessment has been carried out.
<b>TSCA</b>	All components of this product are listed as active, or excluded from listing, on the United States Environmental Protection Agency Toxic Substances Control Act (TSCA) inventory.
<b>SARA Section 313 - Emission Reporting</b>	This substance or mixture is not known to contain a toxic chemical or chemicals in excess of the applicable de minimis concentration as specified in 40 CFR §372.38(a) subject to the reporting requirements of section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372.
<b>California Proposition 65</b>	California Proposition 65 - This product does not contain any substances known to the state of California to cause cancer, developmental and/or reproductive harm.
<b>Additional information</b>	This SDS generally complies with the requirements listed under current guidelines in the US, EU and Canada. Consult your local or regional authorities for more information.

## SECTION 16: Other information

---

<b>Full text of H phrases and GHS classification</b>	Eye Irrit. 2 - Serious eye damage/eye irritation Category 2. Skin Irrit. 2 - Skin corrosion/irritation Category 2. STOT SE 3 - Specific target organ toxicity — Single exposure, Category 3, Respiratory tract irritation. H315 - Causes skin irritation. H319 - Causes serious eye irritation. H335 - May cause respiratory irritation.
<b>Data sources</b>	Information from published literature and internal company data.
<b>Abbreviations and acronyms</b>	ACGIH - American Conference of Governmental Industrial Hygienists; ADR/RID - European Agreement Concerning the International Carriage of Dangerous Goods by Road/Rail; AIHA - American Industrial Hygiene Association; CAS# - Chemical Abstract Services Number; CLP - Classification, Labelling, and Packaging of Substances and Mixtures; DNEL - Derived No Effect Level; DOT - Department of Transportation; EINECS - European Inventory of New and Existing Chemical Substances; ELINCS - European List of Notified Chemical Substances; EU - European Union; GHS - Globally Harmonized System of Classification and Labeling of Chemicals; IARC - International Agency for Research on Cancer; IDLH - Immediately Dangerous to Life or Health; IATA - International Air Transport Association; IMDG - International Maritime Dangerous Goods; LOEL - Lowest Observed Effect Level; LOAEL - Lowest Observed Adverse Effect Level; NIOSH - The National Institute for Occupational Safety and Health; NMT - Not More Than; NOEL - No Observed Effect Level; NOAEL - No Observed Adverse Effect Level; NTP - National Toxicology Program; OEL - Occupational Exposure Limit; OSHA - Occupational Safety and Health Administration; PBT - Persistent, Bioaccumulative, and Toxic; PNEC - Predicted No Effect Concentration; SARA - Superfund Amendments and Reauthorization Act; STOT - Specific Target Organ Toxicity; STEL - Short Term Exposure Limit; TDG - Transportation of Dangerous Goods; TSCA - Toxic Substances Control Act; TWA - Time Weighted Average; vPvB - Very Persistent and Very Bioaccumulative; WHMIS - Workplace Hazardous Materials Information System
<b>Issue date</b>	27 October 2021
<b>Current revision</b>	1.0
<b>Indication of changes</b>	This is the first version of this SDS
<b>Disclaimer</b>	The above information is based on data available to us and is believed to be correct. Since the information may be applied under conditions beyond our control and with which we may be unfamiliar, we do not assume any responsibility for the results of its use and all persons receiving it must make their own determination of the effects, properties and protections which pertain to their particular conditions. No representation, warranty, or guarantee, express or implied (including a warranty of fitness or merchantability for a particular purpose), is made with respect to the materials, the accuracy of this information, the results to be obtained from the use thereof, or the hazards connected with the use of the material. Caution should be used in the handling and use of the material because it is a biochemical reagent. The above information is offered in good faith and with the belief that it is accurate. As of the date of issuance, we are providing all information relevant to the foreseeable handling of the material. However, in the event of an adverse incident associated with this product, this Safety Data Sheet is not, and is not intended to be, a substitute for consultation with appropriately trained personnel.

# Safety Data Sheet

## SECTION 1: Identification

### Contact information

#### General

Vizgen, Inc.  
61 Moulton St.  
Cambridge, MA 02138  
Main: +1 (833) 222-8206  
E-mail: info@vizgen.com

**Emergency telephone number** Chemtrec (24-hour availability):  
+1 (800) 424-9300 (USA and Canada);  
+1 (703) 527-3887 (International; collect calls accepted)

<b>Product identifier</b>	Extinguishing Buffer, BULK
<b>Product number</b>	20200022
<b>Trade name</b>	Not applicable
<b>Chemical family</b>	Mixture
<b>Recommended uses and restrictions</b>	Reagent for research and development purposes only.
<b>Note</b>	This SDS is written to address potential worker health and safety issues associated with the handling of the formulated product/mixture. Workers manufacturing this product/mixture should consult the SDS of each hazardous ingredient for hazard information and handling recommendations. This SDS will be revisited if more data become available.

## SECTION 2: Hazard(s) identification

**Skin corrosion/irritation Category 2**  
Causes skin irritation  
**Serious eye damage/eye irritation Category 2**  
Causes serious eye irritation

### Label elements

#### GHS Hazard pictograms

#### GHS Signal word

Warning

#### GHS Hazard statements

H315 - Causes skin irritation  
H319 - Causes serious eye irritation

#### GHS Precautionary statements

P264 - Wash hands, forearms and face thoroughly after handling. P280 - Wear protective gloves/protective clothing/eye protection/face protection. P302+P352 - If on skin: Wash with plenty of water. P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P321 - Specific treatment (see supplemental first aid instruction on this label). P332+P313 - If skin irritation occurs: Get medical advice/attention. P337+P313 - If eye irritation persists: Get medical advice/attention. P362+P364 - Take off contaminated clothing and wash it before reuse.

### Other hazards

No data were available for the mixture. The following data describe the hazards associated with the active ingredient and/or the individual ingredients where applicable.

Tris-(2-carboxyethyl)phosphine hydrochloride is corrosive to eyes and skin.

**Note** This mixture is classified as hazardous under GHS as implemented by Regulation EC No 1272/2008 (EU CLP), WHMIS 2015 (Health Canada), and Hazard Communication Standard No. 1910.1200 (US OSHA).

### SECTION 3: Composition/Information on ingredients

Ingredient	CAS number	EINECS/ELINCS#	Amount	GHS classification
Tris-(2-carboxyethyl)phosphine Hydrochloride	51805-45-9	N/A	< 3 %	Skin Corr. 1, H314 Eye Dam. 1, H318

**Note** The ingredient(s) listed above are considered hazardous. The remaining components are not hazardous and/or present at amounts below reportable limits.

### SECTION 4: First-aid measures

#### Description of first aid measures

**Immediate medical attention and special treatment, if necessary** Yes.

#### Inhalation

Immediately move exposed subject to fresh air. If not breathing, give artificial respiration. If breathing is labored, administer oxygen. Immediately notify medical personnel and supervisor.

#### Skin contact

Wash skin with plenty of water. Take off contaminated clothing. If skin irritation occurs: Get medical advice/attention. Wash exposed area with soap and water and remove contaminated clothing/shoes. If irritation occurs or persists, notify medical personnel and supervisor.

#### Eye contact

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. If easy to do, remove contact lenses, if worn. Immediately flush eyes with copious quantities of water for at least 15 minutes. If irritation occurs or persists, notify medical personnel and supervisor.

#### Ingestion

If swallowed, call a physician immediately. Do not induce vomiting unless directed by medical personnel. Do not give anything to drink unless directed by medical personnel. Never give anything by mouth to an unconscious person. Notify medical personnel and supervisor.

#### Most Important Symptoms/Effects

Medical conditions aggravated by exposure: None known or reported. Treat symptomatically and supportively.

#### Expected Symptoms/Effects, Acute and Delayed

See Sections 2 and 11

### SECTION 5: Fire-fighting measures

#### Suitable (and unsuitable) extinguishing media

##### Suitable extinguishing media

Use water spray (fog), foam, dry powder, or carbon dioxide, as appropriate for surrounding fire and materials.

##### Unsuitable extinguishing media

None known.

#### Specific hazards arising from the chemical

No information identified. May emit carbon monoxide, carbon dioxide, oxides of phosphorus and other phosphorus- and chlorine-containing compounds.

##### Fire hazard

No information identified. As product is an aqueous solution, it is not expected to be flammable.

##### Explosion hazard

No information identified. As product is an aqueous solution, it is not expected to be explosive.

#### Special protective equipment and precautions for fire-fighters

##### Firefighting instructions

In case of fire in the surroundings: use the appropriate extinguishing agent. Wear full protective clothing and an approved, positive pressure, self-contained breathing apparatus. Decontaminate all equipment after use.

### SECTION 6: Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

##### Protective equipment

If product is released or spilled, take proper precautions to minimize exposure by using appropriate personal protective equipment (see Section 8). Area should be adequately ventilated.

##### Emergency procedures

Do not breathe vapors/mist/spray.

##### Environmental precautions

Do not empty into drains. Avoid release to the environment.

#### Methods and material for containment and cleaning up

##### Methods for cleaning up

DO NOT CAUSE MATERIAL TO BECOME AIRBORNE. For small spills, soak up material with absorbent, e.g. paper towels. For large spills, cordon off spill area and minimize the spreading of spilled material. Soak up material with absorbent. Collect spilled material, absorbent, and rinse water into suitable containers for proper disposal in accordance with applicable waste disposal regulations (see Section 13). Decontaminate the area twice with an appropriate solvent (see Section 9).

##### Other information

Dispose of materials or solid residues at an authorized site.

##### Reference to other sections

See Sections 8 and 13 for more information.

---

## SECTION 7: Handling and storage

---

<b>Precautions for safe handling</b>	Follow recommendations for handling bulk formulated biochemical reagents (i.e. use of engineering controls and/or other personal protective equipment if needed). Avoid contact with eyes, skin, and other mucous membranes. Wash thoroughly after handling. Do not breathe vapor/mist/spray. Avoid contact with skin and eyes.
<b>Conditions for safe storage, including any incompatibilities</b>	
<b>Storage conditions</b>	Store at NMT -20° C, away from incompatible materials.
<b>Storage temperature</b>	≤ -20 °C
<b>Specific end use(s)</b>	Research and development.

---

## SECTION 8: Exposure controls/personal protection

---

### Control parameters/Occupational Exposure Limits

Name	Issuer	Value
Tris-(2-carboxyethyl)phosphine Hydrochloride	No data available	No data available

---

<b>Appropriate engineering controls</b>	Control exposures to below the OEL (for the active ingredient(s) if available). Selection and use of containment devices and personal protective equipment should be based on a risk assessment of exposure potential. Use local exhaust and/or enclosure at aerosol/mist-generating points. Use engineered local exhaust ventilation (LEV) and/or enclosure for procedures where aerosolization may occur such as opened transfers, pumping, and spraying. Solutions can be handled outside a containment system or without LEV during procedures with no potential for aerosolization. All containers for solutions and slurries must be covered while being transferred.
<b>Respiratory protection</b>	Choice of respiratory protection should be appropriate to the task and the level of existing engineering controls. At a minimum, a tight-fitting full-face respirator with HEPA filters is required when performing aerosol-generating operations. A powered air-purifying respirator (PAPR) with HEPA filters and head cover is required for spill cleanup.
<b>Hand protection</b>	Wear nitrile or other impervious gloves if skin contact is possible. When the material is diluted in an organic solvent, wear gloves that provide protection against the solvent.
<b>Eye protection</b>	Wear safety glasses with side shields, chemical splash goggles, or full face shield, if necessary. Base the choice of protection on the job activity and potential for contact with eyes or face. An emergency eye wash station should be available.
<b>Skin and body protection</b>	Wear disposable coveralls appropriate to the task, booties, and safety glasses with side shields. Ensure gloves are protective against solvents in use. Protective garments (coveralls, disposable coveralls, lab coats) are not to be worn in common areas (e.g., cafeterias) or out-of-doors. Employees must be trained in proper gowning and degowning practices
<b>Other protective measures</b>	Wash hands in the event of contact with this substance, especially before eating, drinking or smoking. Protective equipment is not to be worn outside the work area (e.g., in common areas or out-of-doors).
<b>Environmental exposure controls</b>	Avoid release to the environment and operate within closed systems wherever practicable. Air and liquid emissions should be directed to appropriate pollution control devices. In case of spill, do not release to drains. Implement appropriate and effective emergency response procedures to prevent release or spread of contamination and to prevent inadvertent contact by personnel.

---

## SECTION 9: Physical and chemical properties

---

<b>Physical state</b>	Liquid
<b>Appearance</b>	Clear
<b>Formula</b>	Not applicable (Mixture)
<b>Molecular mass</b>	Not applicable (Mixture)
<b>Color</b>	Colorless.
<b>Odor</b>	No data available
<b>Odor threshold</b>	No data available
<b>pH</b>	No data available
<b>Melting point</b>	No data available
<b>Freezing point</b>	No data available
<b>Boiling point</b>	No data available
<b>Flash point</b>	No data available
<b>Relative evaporation rate (butyl acetate=1)</b>	No data available
<b>Flammability (solid, gas)</b>	No data available
<b>Vapor pressure</b>	No data available
<b>Relative vapor density at 20 °C</b>	No data available
<b>Relative density</b>	No data available

---

<b>Solubility</b>	Soluble in water (aqueous solution).
<b>Log Pow</b>	No data available
<b>Auto-ignition temperature</b>	No data available
<b>Decomposition temperature</b>	No data available
<b>Viscosity, kinematic</b>	No data available
<b>Viscosity, dynamic</b>	No data available
<b>Explosion limits</b>	No data available
<b>Explosive properties</b>	No data available
<b>Oxidizing properties</b>	No data available

---

## SECTION 10: Stability and reactivity

---

<b>Reactivity</b>	The product is non-reactive under normal conditions of use, storage and transport.
<b>Chemical stability</b>	Stable under normal conditions.
<b>Possibility of hazardous reactions</b>	No dangerous reactions known under normal conditions of use.
<b>Conditions to avoid</b>	None under recommended storage and handling conditions (see section 7).
<b>Incompatible materials</b>	No data available.
<b>Hazardous decomposition products</b>	Under normal conditions of storage and use, hazardous decomposition products should not be produced.

---

## SECTION 11: Toxicological information

---

**Likely routes of exposure** May be absorbed by inhalation, skin contact and ingestion.

### Toxicological information

#### Acute toxicity

Component	Type	Dose
Tris-(2-carboxyethyl)phosphine Hydrochloride	No data available	No data available

#### Additional information

No data available

#### Serious eye damage/irritation

Tris-(2-carboxyethyl)phosphine hydrochloride is considered corrosive to eyes.

#### Skin corrosion/irritation

Tris-(2-carboxyethyl)phosphine hydrochloride is considered corrosive to skin.

#### Sensitization

No data available

#### STOT-single exposure

No data available

#### STOT-repeated exposure

No data available

#### Reproductive toxicity

No data available

#### Developmental toxicity

No data available

#### Genotoxicity

No data available

#### Carcinogenicity

No data available. None of the components of the mixture present at levels greater than or equal to 0.1% are listed by NTP, IARC, ACGIH or OSHA as a carcinogen

#### Aspiration hazard

No data available

#### Experience with humans

See "Section 2 - Other Hazards".

---

## SECTION 12: Ecological information

---

### Toxicity

Component	Type	Concentration
Tris-(2-carboxyethyl)phosphine Hydrochloride	No data available	No data available
<b>Persistence and degradability</b>	No data available.	
<b>Bioaccumulative potential</b>	No data available.	
<b>Mobility in soil</b>	No data available	
<b>Results of PBT assessment</b>	No data available	
<b>Other adverse effects</b>	No data available	

#### Note

The environmental characteristics of this product/mixture have not been fully investigated. Releases to the environment should be avoided.

---

## SECTION 13: Disposal considerations

---

**Waste treatment methods**

Used product should be disposed of according to local, state, and federal regulations. All wastes containing the material should be properly labeled. Dispose of wastes in accordance to prescribed federal, state, and local guidelines, e.g, appropriately permitted chemical waste incinerator. Rinse waters resulting from spill cleanups should be discharged in an environmentally safe manner, e.g, appropriately permitted municipal or on-site wastewater treatment facility.

---

**SECTION 14: Transport information**

---

<b>Transport</b>	Based on the available data, this product/mixture is not regulated as a hazardous material/dangerous good under EU ADR/RID, US DOT, Canada TDG, IATA, or IMDG.
<b>UN number</b>	None assigned.
<b>UN proper shipping name</b>	None assigned.
<b>Transport hazard class(es) (DOT)</b>	None assigned.
<b>Packing group</b>	None assigned.
<b>Marine pollutant</b>	Based on the available data, this product/mixture is not regulated as an environmental hazard or a marine pollutant.
<b>Special transport precautions</b>	Avoid release to the environment.
<b>Transport in bulk according to Annex II of Marpol and the IBC Code</b>	Not applicable

---

**SECTION 15: Regulatory information**

---

<b>Safety, health and environmental regulations/legislation specific for the substance or mixture</b>	This SDS generally complies with the requirements listed under current guidelines in the US, EU and Canada. Consult your local or regional authorities for more information.
<b>Chemical safety assessment</b>	No chemical safety assessment has been carried out.
<b>TSCA</b>	All components of this product are listed as active, or excluded from listing, on the United States Environmental Protection Agency Toxic Substances Control Act (TSCA) inventory.
<b>SARA Section 313 - Emission Reporting</b>	This substance or mixture is not known to contain a toxic chemical or chemicals in excess of the applicable de minimis concentration as specified in 40 CFR §372.38(a) subject to the reporting requirements of section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372.
<b>California Proposition 65</b>	California Proposition 65 - This product does not contain any substances known to the state of California to cause cancer, developmental and/or reproductive harm.
<b>Additional information</b>	No additional information available

---

**SECTION 16: Other information**

---

<b>Full text of H phrases and GHS classification</b>	Eye Dam. 1 - Serious eye damage/eye irritation Category 1. Eye Irrit. 2 - Serious eye damage/eye irritation Category 2. Cambridge, MA 02138  
Main: +1 (833) 222-8206  
E-mail: info@vizgen.com

**Emergency telephone number** Chemtrec (24-hour availability):  
+1 (800) 424-9300 (USA and Canada);  
+1 (703) 527-3887 (International; collect calls accepted)

**Product identifier** Hybridization Buffer, BULK  
**Product number** 20200025; 20200026; 20200027; 20200028; 20200029; 20200030; 20200031; 20200032;  
20200033; 20200034; 20200035; 20200036  
**Trade name** Not applicable  
**Chemical family** Mixture  
**Recommended uses and restrictions** Reagent for research and development purposes only.  
**Note** This SDS is written to address potential worker health and safety issues associated with the handling of the formulated product/mixture. Workers manufacturing this product/mixture should consult the SDS of each hazardous ingredient for hazard information and handling recommendations. This SDS will be revisited if more data become available.

## SECTION 2: Hazard(s) identification

### Classification of the substance or mixture

**Skin corrosion/irritation Category 2**  
Causes skin irritation.  
**Serious eye damage/eye irritation Category 2**  
Causes serious eye irritation  
**Specific target organ toxicity (single exposure) Category 3**  
May cause respiratory irritation

### Label elements

#### GHS Hazard pictograms

#### GHS Signal word

Warning

#### GHS Hazard statements

H315 - Causes skin irritation.  
H319 - Causes serious eye irritation  
H335 - May cause respiratory irritation.

#### GHS Precautionary statements

P261 - Avoid breathing mist or vapor. P264 - Wash hands thoroughly after handling. P271 - Use only outdoors or in a well-ventilated area. P280 - Wear protective gloves/eye protection/face protection. P302 + P352 - IF ON SKIN: Wash with plenty of soap and water. P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P312 - Call a Poison Center or doctor/physician if you feel unwell. P362 - Take off contaminated clothing. P403 + P233 - Store in a well-ventilated place. Keep container tightly closed. P405 - Store locked up. P501 - Dispose of contents/container to location in accordance with local/regional/national/international regulations.

**Other hazards**

No data were available for the mixture. The following data describe the hazards associated with the active ingredient and/or the individual ingredients where applicable

**Note**

This mixture is classified as hazardous under GHS as implemented by Regulation EC No 1272/2008 (EU CLP), WHMIS 2015 (Health Canada), and Hazard Communication Standard No. 1910.1200 (US OSHA).

**SECTION 3: Composition/Information on ingredients**

Ingredient	CAS number	EINECS/ELINCS#	Amount	GHS classification
Ethylene Carbonate	96-49-1	202-510-0	< 15 %	Skin Irrit. 2, H315 Eye Irrit. 2, H319 STOT SE 3, H335
Oligodeoxyribonucleic acid (unmodified, modified)	N/A	N/A	< 5 %	Not classified

**Note** The ingredients listed above are considered hazardous. Oligodeoxyribonucleic acid (DNA) is not classified but is listed as it is considered pharmacologically active. Amounts are listed as ranges; the exact percentage of composition is withheld as a trade secret. The remaining components of this product are non-hazardous and/or present in formulation at amounts below reportable limits. See Section 16 for full text of GHS classifications.

**SECTION 4: First-aid measures****Description of first aid measures**

**Immediate medical attention and special treatment, if necessary** Yes.

**Inhalation**

Immediately move exposed subject to fresh air. If not breathing, give artificial respiration. If breathing is labored, administer oxygen. Immediately notify medical personnel and supervisor.

**Skin contact**

Wash exposed area with soap and water and remove contaminated clothing/shoes. If irritation occurs or persists, notify medical personnel and supervisor.

**Eye contact**

If easy to do, remove contact lenses, if worn. Immediately flush eyes with copious quantities of water for at least 15 minutes. If irritation occurs or persists, notify medical personnel and supervisor.

**Ingestion**

If swallowed, call a physician immediately. Do not induce vomiting unless directed by medical personnel. Do not give anything to drink unless directed by medical personnel. Never give anything by mouth to an unconscious person. Notify medical personnel and supervisor.

**Most Important Symptoms/Effects**

Medical conditions aggravated by exposure: None known or reported. Treat symptomatically and supportively.

**Expected Symptoms/Effects, Acute and Delayed**

See Sections 2 and 11

**SECTION 5: Fire-fighting measures****Suitable (and unsuitable) extinguishing media**

**Suitable extinguishing media** Use water spray (fog), foam, dry powder, or carbon dioxide, as appropriate for surrounding fire and materials.

**Unsuitable extinguishing media** None known.

**Specific hazards arising from the chemical**

No information identified. May emit carbon monoxide, carbon dioxide, oxides of nitrogen and other nitrogen-containing compounds.

**Fire hazard**

No information identified. As product is an aqueous solution, it is not expected to be flammable.

**Explosion hazard**

No information identified. As product is an aqueous solution, it is not expected to be explosive.

**Special protective equipment and precautions for fire-fighters****Firefighting instructions**

In case of fire in the surroundings: use the appropriate extinguishing agent. Wear full protective clothing and an approved, positive pressure, self-contained breathing apparatus. Decontaminate all equipment after use.

**SECTION 6: Accidental release measures****Personal precautions, protective equipment and emergency procedures****Protective equipment**

If product is released or spilled, take proper precautions to minimize exposure by using appropriate personal protective equipment (see Section 8). Area should be adequately ventilated.

**Emergency procedures**

Do not breathe vapors/mist/spray.

**Environmental precautions**

Do not empty into drains. Avoid release to the environment.

## Methods and material for containment and cleaning up

### Methods for cleaning up

DO NOT CAUSE MATERIAL TO BECOME AIRBORNE. For small spills, soak up material with absorbent, e.g. paper towels. For large spills, cordon off spill area and minimize the spreading of spilled material. Soak up material with absorbent. Collect spilled material, absorbent, and rinse water into suitable containers for proper disposal in accordance with applicable waste disposal regulations (see Section 13). Decontaminate the area twice with an appropriate solvent (see Section 9).

### Other information

Dispose of materials or solid residues at an authorized site.

### Reference to other sections

See Sections 8 and 13 for more information.

---

## SECTION 7: Handling and storage

---

### Precautions for safe handling

Follow recommendations for handling bulk formulated biochemical reagents (i.e. use of engineering controls and/or other personal protective equipment if needed). Avoid contact with eyes, skin and other mucous membranes. Wash thoroughly after handling. Do not breathe vapor/mist/spray.

### Conditions for safe storage, including any incompatibilities

#### Storage conditions

Store at NMT -20° C, away from incompatible materials. Store protected from light.

#### Storage temperature

≤ -20 °C

#### Specific end use(s)

Research and development.

---

## SECTION 8: Exposure controls/personal protection

---

### Control parameters/Occupational Exposure Limits

Name	Issuer	Value
Oligodeoxyribonucleic acid (unmodified, modified)	No data available	No data available
Ethylene Carbonate	No data available	No data available

### Appropriate engineering controls

Selection and use of containment devices and personal protective equipment should be based on a risk assessment of exposure potential. Use local exhaust and/ or enclosure at aerosol/mist-generating points. Use engineered local exhaust ventilation (LEV) and/or enclosure for procedures where aerosolization may occur such as opened transfers, pumping, and spraying. Solutions can be handled outside a containment system or without LEV during procedures with no potential for aerosolization. All containers for solutions and slurries must be covered while being transferred

#### Respiratory protection

Choice of respiratory protection should be appropriate to the task and the level of existing engineering controls. At a minimum, a tight-fitting full-face respirator with HEPA filters is required when performing aerosol generating operations. A powered air-purifying respirator (PAPR) with HEPA filters and head cover is required for spill cleanup

#### Hand protection

Wear nitrile or other impervious gloves if skin contact is possible. When the material is diluted in an organic solvent, wear gloves that provide protection against the solvent.

#### Eye protection

Wear safety glasses with side shields, chemical splash goggles, or full face shield, if necessary. Base the choice of protection on the job activity and potential for contact with eyes or face. An emergency eye wash station should be available.

#### Skin and body protection

Wear disposable coveralls appropriate to the task, booties, and safety glasses with side shields. Ensure gloves are protective against solvents in use. Protective garments (coveralls, disposable coveralls, lab coats) are not to be worn in common areas (e.g., cafeterias) or out-of-doors. Employees must be trained in proper gowning and degowning practices

#### Other protective measures

Wash hands in the event of contact with material, especially before eating, drinking or smoking. Protective equipment is not to be worn outside the work area (e.g., in common areas or out-of-doors).

#### Environmental exposure controls

Avoid release to the environment and operate within closed systems wherever practicable. Air and liquid emissions should be directed to appropriate pollution control devices. In case of spill, do not release to drains. Implement appropriate and effective emergency response procedures to prevent release or spread of contamination and to prevent inadvertent contact by personnel.

---

## SECTION 9: Physical and chemical properties

---

Physical state	Liquid
Appearance	Clear
Formula	Mixture (Not applicable)
Molecular mass	Mixture (Not applicable)
Color	Colorless.
Odor	Odorless.
Odor threshold	No data available
pH	No data available

Melting point	Not applicable
Freezing point	No data available
Boiling point	No data available
Flash point	No data available
Relative evaporation rate (butyl acetate=1)	No data available
Flammability (solid, gas)	No data available
Vapor pressure	No data available
Relative vapor density at 20 °C	No data available
Relative density	No data available
Solubility	Soluble in water (aqueous solution)
Log Pow	No data available
Auto-ignition temperature	No data available
Decomposition temperature	No data available
Viscosity, kinematic	No data available
Viscosity, dynamic	No data available
Explosion limits	No data available
Explosive properties	No data available
Oxidizing properties	No data available

---

## SECTION 10: Stability and reactivity

---

Reactivity	The product is non-reactive under normal conditions of use, storage and transport.
Chemical stability	Stable under normal conditions of use.
Possibility of hazardous reactions	No dangerous reactions known under normal conditions of use.
Conditions to avoid	None under recommended storage and handling conditions (see section 7).
Incompatible materials	Protect from light.
Hazardous decomposition products	Under normal conditions of storage and use, hazardous decomposition products should not be produced.

---

## SECTION 11: Toxicological information

---

Likely routes of exposure May be absorbed by inhalation, skin contact and ingestion.

### Toxicological information

#### Acute toxicity

Component	Type	Dose
Oligodeoxyribonucleic acid (unmodified, modified)	No data available	No data available
Ethylene Carbonate	LD50 Dermal rabbit	> 3000 g/kg
	LD50 Oral rat	10000 g/kg

#### Additional information

#### Serious eye damage/irritation

No data available

#### Skin corrosion/irritation

No data available

Ethylene carbonate may cause eye/skin/respiratory tract irritation.

#### Sensitization

No data available

#### STOT-single exposure

No data available

#### STOT-repeated exposure

Repeated parenteral exposure of mice and rats to moderate doses of various oligonucleotides led to pro-inflammatory effects. Such effects were not reported in monkeys in similar studies.

#### Reproductive toxicity

Oligonucleotides are not likely to adversely affect reproduction

#### Developmental toxicity

Oligonucleotides are not likely to adversely affect embryo/fetal development

Pregnant rats were administered oral doses of ethylene carbonate on gestation days 6-15 at dose levels of 750, 1500, and 3000 mg/kg/day; increased fetal alterations were observed in the highest dose groups. The alterations included skeletal variations in the vertebrae and sternbrae and delayed ossification of sternbrae in the 1500 and 3000 mg/kg/day groups. These alterations were secondary to significant decreases in fetal body weights at 1500 and 3000 mg/kg/day. Maternal toxicity occurred in the highest dose group. No significant differences were observed in number of implantations, copora lutea, viable fetuses, late resorptions, or pre- or post-implantation losses

#### Genotoxicity

Oligonucleotides tested in a battery of *in vitro* and *in vivo* genotoxicity studies were negative.

#### Carcinogenicity

No data available. None of the components of the mixture present at levels greater than or equal to 0.1% are listed by NTP, IARC, ACGIH or OSHA as a carcinogen

Aspiration hazard  
Experience with humans

No data available  
See "Section 2 - Other Hazards".

---

## SECTION 12: Ecological information

---

### Toxicity

Component	Type	Concentration
Oligodeoxyribonucleic acid (unmodified, modified)	No data available	No data available
Ethylene Carbonate	No data available	No data available
Persistence and degradability	No data available.	
Bioaccumulative potential	No data available.	
Mobility in soil	No data available	
Results of PBT assessment	No data available	
Other adverse effects	No data available	
Note	The environmental characteristics of this product/mixture have not been fully investigated. Releases to the environment should be avoided.	

---

## SECTION 13: Disposal considerations

---

Waste treatment methods	Used product should be disposed of according to local, state, and federal regulations. All wastes containing the material should be properly labeled. Dispose of wastes in accordance to prescribed federal, state, and local guidelines, e.g. appropriately permitted chemical waste incinerator. Rinse waters resulting from spill cleanups should be discharged in an environmentally safe manner, e.g. appropriately permitted municipal or on-site wastewater treatment facility.
-------------------------	--

---

## SECTION 14: Transport information

---

Transport	Based on the available data, this product/mixture is not regulated as a hazardous material/dangerous good under EU ADR/RID, US DOT, Canada TDG, IATA, or IMDG.
UN number	None assigned.
UN proper shipping name	None assigned.
Transport hazard class(es) (DOT)	None assigned.
Packing group	None assigned.
Marine pollutant	Based on the available data, this product/mixture is not regulated as an environmental hazard or a marine pollutant.
Special transport precautions	Avoid release to the environment.
Transport in bulk according to Annex II of Marpol and the IBC Code	Not applicable

---

## SECTION 15: Regulatory information

---

Safety, health and environmental regulations/legislation specific for the substance or mixture	This SDS generally complies with the requirements listed under current guidelines in the US, EU and Canada. Consult your local or regional authorities for more information.
Chemical safety assessment	No chemical safety assessment has been carried out.
TSCA	All components of this product are listed as active, or excluded from listing, on the United States Environmental Protection Agency Toxic Substances Control Act (TSCA) inventory.
SARA Section 313 - Emission Reporting	This substance or mixture is not known to contain a toxic chemical or chemicals in excess of the applicable de minimis concentration as specified in 40 CFR §372.38(a) subject to the reporting requirements of section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372.
California Proposition 65	California Proposition 65 - This product does not contain any substances known to the state of California to cause cancer, developmental and/or reproductive harm.
Additional information	This SDS generally complies with the requirements listed under current guidelines in the US, EU and Canada. Consult your local or regional authorities for more information.

---

## SECTION 16: Other information

---

**Full text of H phrases and GHS classification**

Skin Irrit. 2 – Skin corrosion/irritation Category 2.  
Eye Irrit. 2 - Serious eye damage/eye irritation Category 2.  
STOT SE 2 - Specific target organ toxicity (single exposure) Category 3.  
H315 - Causes skin irritation.  
H319 - Causes serious eye irritation.  
H335 - May cause respiratory tract irritation.

**Data sources**

Information from published literature and internal company data.

**Abbreviations and acronyms**

ACGIH - American Conference of Governmental Industrial Hygienists; ADR/RID - European Agreement Concerning the International Carriage of Dangerous Goods by Road/Rail; AIHA - American Industrial Hygiene Association; CAS# - Chemical Abstract Services Number; CLP - Classification, Labelling, and Packaging of Substances and Mixtures; DNEL - Derived No Effect Level; DOT - Department of Transportation; EINECS - European Inventory of New and Existing Chemical Substances; ELINCS - European List of Notified Chemical Substances; EU - European Union; GHS - Globally Harmonized System of Classification and Labeling of Chemicals; IARC - International Agency for Research on Cancer; IDLH - Immediately Dangerous to Life or Health; IATA - International Air Transport Association; IMDG - International Maritime Dangerous Goods; LOEL - Lowest Observed Effect Level; LOAEL - Lowest Observed Adverse Effect Level; NIOSH - The National Institute for Occupational Safety and Health; NMT - Not More Than; NOEL - No Observed Effect Level; NOAEL - No Observed Adverse Effect Level; NTP - National Toxicology Program; OEL - Occupational Exposure Limit; OSHA - Occupational Safety and Health Administration; PBT - Persistent, Bioaccumulative, and Toxic; PNEC - Predicted No Effect Concentration; SARA - Superfund Amendments and Reauthorization Act; STOT - Specific Target Organ Toxicity; STEL - Short Term Exposure Limit; TDG - Transportation of Dangerous Goods; TSCA - Toxic Substances Control Act; TWA - Time Weighted Average; vPvB - Very Persistent and Very Bioaccumulative; WHMIS - Workplace Hazardous Materials Information System

**Issue date**

27 October 2021

**Current revision**

1.1

**Indication of changes**

This is the second version of this SDS.

**Disclaimer**

The above information is based on data available to us and is believed to be correct. Since the information may be applied under conditions beyond our control and with which we may be unfamiliar, we do not assume any responsibility for the results of its use and all persons receiving it must make their own determination of the effects, properties and protections which pertain to their particular conditions. No representation, warranty, or guarantee, express or implied (including a warranty of fitness or merchantability for a particular purpose), is made with respect to the materials, the accuracy of this information, the results to be obtained from the use thereof, or the hazards connected with the use of the material. Caution should be used in the handling and use of the material because it is a biochemical reagent. The above information is offered in good faith and with the belief that it is accurate. As of the date of issuance, we are providing all information relevant to the foreseeable handling of the material. However, in the event of an adverse incident associated with this product, this Safety Data Sheet is not, and is not intended to be, a substitute for consultation with appropriately trained personnel.
