Safety Data Sheet

SECTION 1: Identification

Contact information General

Vizgen, Inc. 61 Moulton St.

Cambridge, MA 02138 Main: +1 (833) 222-8206 E-mail: info@vizgen.com

Emergency telephone

number

Chemtrec (24-hour availability): +1 (800) 424-9300 (USA and Canada);

+1 (703) 527-3887 (International; collect calls accepted)

Product identifier Cell Boundary Primary Stain Mix

Product number 20300010

Trade name Not applicable
Chemical family Mixture

Recommended uses and restrictions

Note

Reagent for research and development purposes only.

This SDS is written to address potential worker health and safety issues associated with the handling of the formulated product/mixture. Workers manufacturing this product/mixture should

consult the SDS of each hazardous ingredient for hazard information and handling recommendations. This SDS will be revisited if more data become available.

SECTION 2: Hazard(s) identification

Classification of the substance or mixture

Not classified

Label elements

GHS Hazard pictograms

GHS Signal word

GHS Hazard statements

GHS Precautionary statements

Not applicable

Not applicable

Other hazards

No data were available for the mixture. The following data describe the hazards associated with

the active ingredient and/or the individual ingredients where applicable.

Note This mixture does not meet criteria for classification under GHS as implemented by Regulation

EC No 1272/2008 (EU CLP), WHMIS 2015 (Health Canada), and Hazard Communication Standard No. 1910.1200 (US OSHA). Nevertheless, it should be handled with caution as it has

not yet been fully tested ..

SECTION 3: Composition/Information on ingredients

Ingredient	CAS number	EINECS/ELINCS#	Amount	GHS classification
Glycerol	56-81-5	200-289-5	≤ 50 %	Not classified

Note

The ingredients listed above are considered hazardous. Glycerol is not classified but is listed because it has OELs. The remaining components are non-hazardous and/or present at amounts below reportable limits. See Section 16 for full text of GHS classifications.

SECTION 4: First-aid measures

Description of first aid measures

Immediate medical attention and special

treatment, if necessary

Inhalation

No. If exposed or concerned, get medical advice/attention.

If experiencing respiratory symptoms: Call a poison center or a doctor. Immediately move exposed subject to fresh air. If not breathing, give artificial respiration. If breathing is labored,

administer oxygen. Immediately notify medical personnel and supervisor.

Skin contact Wash exposed area with soap and water and remove contaminated clothing/shoes. If irritation

occurs or persists, notify medical personnel and supervisor.

Eye contact If easy to do, remove contact lenses, if worn. Immediately flush eyes with copious quantities of

water for at least 15 minutes. If irritation occurs or persists, notify medical personnel and

supervisor.

Ingestion If swallowed, call a physician immediately. Do not induce vomiting unless directed by medical

personnel. Do not give anything to drink unless directed by medical personnel. Never give anything by mouth to an unconscious person. Notify medical personnel and supervisor.

Most Important Symptoms/Effects Medical conditions aggravated by exposure: None known or reported. Treat symptomatically

and supportively.

Expected Symptoms/Effects, Acute and

Delayed

See Sections 2 and 11

SECTION 5: Fire-fighting measures

Suitable (and unsuitable) extinguishing media

and materials.

Specific hazards arising from the chemical No information identified. May emit carbon monoxide, carbon dioxide, oxides of nitrogen and

other nitrogen-containing compounds.

Fire hazardNo information identified. As product is an aqueous solution, it is not expected to be flammable.

No information identified. As product is an aqueous solution, it is not expected to be explosive.

Special protective equipment and precautions for fire-fighters Firefighting instructions

Explosion hazard

In case of fire in the surroundings: use the appropriate extinguishing agent. Wear full protective

clothing and an approved, positive pressure, self-contained breathing apparatus.

Decontaminate all equipment after use.

SECTION 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures

Protective equipment If product is released or spilled, take proper precautions to minimize exposure by using

appropriate personal protective equipment (see Section 8). Area should be adequately

ventilated.

Emergency procedures Do not breathe vapors/mist/spray.

Environmental precautions Do not empty into drains. Avoid release to the environment.

Methods and material for containment and cleaning up

Methods for cleaning up DO NOT CAUSE MATERIAL TO BECOME AIRBORNE. For small spills, soak up material with

absorbent, e.g, paper towels. For large spills, cordon off spill area and minimize the spreading of spilled material. Soak up material with absorbent. Collect spilled material, absorbent, and rinse water into suitable containers for proper disposal in accordance with applicable waste disposal regulations (see Section 13). Decontaminate the area twice with an appropriate

solvent.

Other information Dispose of materials or solid residues at an authorized site.

Reference to other sections See Sections 8 and 13 for more information

SECTION 7: Handling and storage

Precautions for safe handling Follow recommendations for handling bulk formulated biochemical reagents (i.e, use of

engineering controls and/or other personal protective equipment if needed). Avoid contact with eyes, skin and other mucous membranes. Wash thoroughly after handling. Do not breathe vapor/mist/spray.

Conditions for safe storage, including any incompatibilities

Storage conditions Store at NMT -20° C, away from incompatible materials.

Storage temperature ≤ -20 °C

Document number: 93200002 Document revision: B Revision date:September 2022

SECTION 8: Exposure controls/personal protection

_			
Control r	oarameters.	Occupational	Exposure Limits

Name	Issuer	Value
Glycerol	BE - Limit value [mg/m³]	10 mg/m³
	CH - KZGW (mg/m³)	100 mg/m³
	CH - VME [mg/m³]	50 mg/m³
	CZ - Exposure limits (NPK-P) (mg/m³)	15 mg/m³
	CZ - Exposure limits (NPK-P) (ppm)	3.66 ppm
	CZ - Exposure limits (PEL) (mg/m³)	10 mg/m³
	CZ - Exposure limits (PEL) (ppm)	2.44 ppm
	ES - VLA-ED (mg/m³)	10 mg/m³
	FI - HTP-arvo (8h) (mg/m³)	20 mg/m³
	FR - VME [mg/m³]	10 mg/m³
	IE - OEL (8 hours ref) (mg/m³)	10 mg/m³
	PL - NDS (mg/m³)	10 mg/m³
	SK - NPHV (priemerná) (mg/m³)	10 mg/m³
	DE - Occupational exposure limit value (mg/m³)	200 mg/m³ (E)
	GB - WEL TWA (mg/m³)	10 mg/m³
	ACGIH TWA (mg/m³)	10 mg/m³
	OSHA PEL (TWA) [1]	15 mg/m³ (total)
	SI - OEL STEL	400 mg/m³

Appropriate engineering controls

Selection and use of containment devices and personal protective equipment should be based on a risk assessment of exposure potential. Use local exhaust and/ or enclosure at aerosol/mist-generating points. Use engineered local exhaust ventilation (LEV) and/or enclosure for procedures where aerosolization may occur such as opened transfers, pumping, and spraying. Solutions can be handled outside a containment system or without LEV during procedures with no potential for aerosolization. All containers for solutions and slurries must be covered while being transferred.

Respiratory protection

Choice of respiratory protection should be appropriate to the task and the level of existing engineering controls. At a minimum, a tight-fitting full-face respirator with HEPA filters is required when performing aerosol generating operations. A powered air-purifying respirator (PAPR) with HEPA filters and head cover is required for spill cleanup.

Hand protection

Wear nitrile or other impervious gloves if skin contact is possible. When the material is diluted in an organic solvent, wear gloves that provide protection against the solvent.

Eye protection

Wear safety glasses with side shields, chemical splash goggles, or full face shield, if necessary. Base the choice of protection on the job activity and potential for contact with eyes or face. An emergency eye wash station should be available.

Skin and body protection

Wear disposable coveralls appropriate to the task, booties, and safety glasses with side shields. Ensure gloves are protective against solvents in use. Protective garments (coveralls, disposable coveralls, lab coats) are not to be worn in common areas (e.g., cafeterias) or out-of-doors. Employees must be trained in proper gowning and degowning practices

Other protective measures

Wash hands in the event of contact with this product/mixture, especially before eating, drinking or smoking. Protective equipment is not to be worn outside the work area (e.g., in common areas or out-of-doors). Decontaminate all protective equipment following use.

Environmental exposure controls

Avoid release to the environment and operate within closed systems wherever practicable. Air and liquid emissions should be directed to appropriate pollution control devices. In case of spill, do not release to drains. Implement appropriate and effective emergency response procedures to prevent release or spread of contamination and to prevent inadvertent contact by personnel.

SECTION 9: Physical and chemical properties

Physical state Liquid Appearance Clear

Formula Mixture (Not Applicable)
Molecular mass Mixture (Not Applicable)

ColorColorless.OdorOdorless.Odor thresholdNo data availablepHNo data availableMelting pointNot applicable.Freezing pointNo data availableBoiling pointNo data available

Flash point No data available Relative evaporation rate (butyl acetate=1) No data available Flammability (solid, gas) No data available Vapor pressure No data available Relative vapor density at 20 °C No data available Relative density No data available

Solubility Soluble in water (aqueous solution)

Log Pow No data available **Auto-ignition temperature** No data available **Decomposition temperature** No data available No data available Viscosity, kinematic Viscosity, dynamic No data available **Explosion limits** No data available No data available **Explosive properties** Oxidizing properties No data available

SECTION 10: Stability and reactivity

Reactivity The product is non-reactive under normal conditions of use, storage and transport.

Chemical stability Stable under normal conditions.

Possibility of hazardous reactions No dangerous reactions known under normal conditions of use.

Conditions to avoid None under recommended storage and handling conditions (see section 7).

Incompatible materials No data available.

Hazardous decomposition products Under normal conditions of storage and use, hazardous decomposition products should not be

produced.

SECTION 11: Toxicological information

Likely routes of exposure May be absorbed by inhalation, skin contact and ingestion.

Toxicological information

Acute toxicity

Component	Туре	Dose	
Glycerol	LD50 Oral rat	12600 mg/kg	
_	LD50 Dermal rabbit	> 10000 mg/kg	

Additional information No data available Serious eye damage/irritation No data available Skin corrosion/irritation No data available Sensitization No data available STOT-single exposure No data available STOT-repeated exposure No data available Reproductive toxicity No data available **Developmental toxicity** No data available Genotoxicity No data available

Carcinogenicity No data available. None of the components of this product/mixture present at levels greater

than or equal to 0.1% are listed by NTP, IARC, ACGIH or OSHA as a carcinogen.

> 10000 mg/kg

Aspiration hazard No data available

Experience with humans See "Section 2 - Other Hazards".

SECTION 12: Ecological information

Toxicity

No data available

The environmental characteristics of this product/mixture have not been fully investigated. Releases to the environment should be avoided.

SECTION 13: Disposal considerations

Waste treatment methods

Used product should be disposed of according to local, state, and federal regulations. All wastes containing the material should be properly labeled. Dispose of wastes in accordance to prescribed federal, state, and local guidelines, e.g, appropriately permitted chemical waste incinerator. Rinse waters resulting from spill cleanups should be discharged in an environmentally safe manner, e.g, appropriately permitted municipal or on-site wastewater treatment facility.

SECTION 14: Transport information

Transport

Based on the available data, this product/mixture is not regulated as a hazardous material/dangerous good under EU ADR/RID, US DOT, Canada TDG, IATA, or IMDG.

UN number
UN proper shipping name
Transport hazard class(es) (DOT)

Packing group

Marine pollutant

None assigned.

Based on the available data, this product/mixture is not regulated as an environmental hazard

or a marine pollutant.

Avoid release to the environment.

Special transport precautions

Transport in bulk according to Annex II of

Marpol and the IBC Code

Not applicable

None assigned.

None assigned.

None assigned.

SECTION 15: Regulatory information

Safety, health and environmental regulations/legislation specific for the substance or mixture

Chemical safety assessment

TSCA

SARA Section 313 - Emission Reporting

California Proposition 65

Additional information

This SDS generally complies with the requirements listed under current guidelines in the US, EU and Canada. Consult your local or regional authorities for more information.

No chemical safety assessment has been carried out.

All components of this product are listed as active, or excluded from listing, on the United States Environmental Protection Agency Toxic Substances Control Act (TSCA) inventory.

This substance or mixture is not known to contain a toxic chemical or chemicals in excess of the applicable de minimis concentration as specified in 40 CFR §372.38(a) subject to the reporting requirements of section 313 of Title III of the Superfund Amendments and

Reauthorization Act of 1986 and 40 CFR Part 372.

California Proposition 65 - This product does not contain any substances known to the state of

California to cause cancer, developmental and/or reproductive harm.

This SDS generally complies with the requirements listed under current guidelines in the US,

EU and Canada. Consult your local or regional authorities for more information.
