

# HAPPY 1ST BIRTHDAY MERSCOPE™

## ● MERSCOPE™ LAUNCH

We launched the commercial MERSCOPE™ Platform in the US on January 18, 2022, establishing it as the first high plex, in situ single-cell spatial genomics solution.

## ● \$85.2 MILLION SERIES C

In June, Vizgen secured \$85.2 million in Series C Financing, bring our total funding to \$136.2 million.

## ● NEW PRODUCTS

We also launched new MERSCOPE™ products:

MERSCOPE™ Protein Stain Reagents Kits

MERSCOPE™ FFPE Sample Prep Kits

Available now!

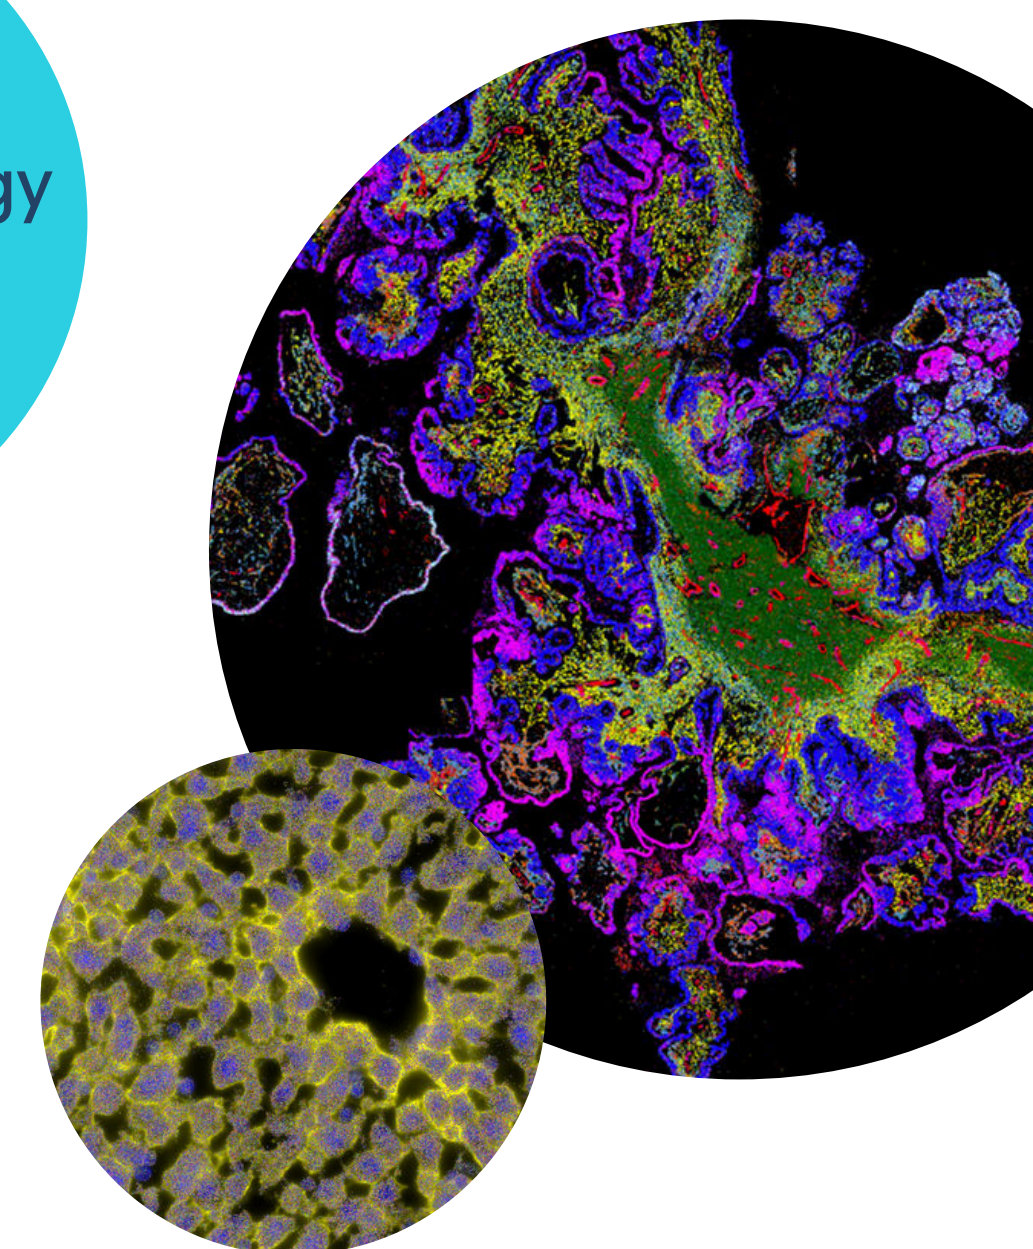

## ● DATA RELEASES

Two new Data Releases enabled the public to experience MERFISH data generated by MERSCOPE™ :

Mouse Liver Map Explore liver zonation

FFPE Human Immuno-oncology Dive into FFPE tumors

## ● GLOBAL EXPANSION

We expanded our operations directly in the EMA region and formed a distributor network for the APAC region, Switzerland and Israel.

## ● OVERALL BIOTECH OF THE YEAR

Our hard work paid off- In November, Vizgen was recognized by BioTech Breakthrough as the Overall Biotech Company of the Year!
